Subject Fw: Prebrief for Mayor of Grand Prairie 9/16/08

I know there is a lot going on so am sending this broadly so folks can plan to attend this prebrief tomorrow. You got a previous email from Claudia to provide fact sheets. You can send your input to Claudia who will compile our Superfund facts.

Subject Meeting with Mayor Greene on 9/16/08

Joyce,

The City of Grand Prairie requested the meeting with Mayor Greene to discuss the current soil vapor intrusion studies being conducted in Grand Prairie as part of the regional initiative to assess whether or not soil vapor intrusion is an issue. The original chosen site at Delfasco Forge (EPA Contact George Fife) did find soil vapor inside residence's homes in excess of the protective concentration levels and a community meeting is scheduled in late September. Now, the EPA Superfund Site Assessment Team (EPA Contacts - Bret Kendrick and Brenda Cook) are planning to conduct field studies at an additional 2 locations (SE 14th Street and NE 15th Street) on the east side of Grand Prairie. These studies expect to have several effects on the city which is why the meeting was requested. Please let me know if I can be of further assistance.
